

LIST OF PERSONAL PROTECTIVE EQUIPMENT (PPE) THAT MEET GF QA REQUIREMENTS FOR USE AGAINST COVID-19

Edition: Version 03- 15 December 2022

The list is a consolidated list of Personal Protective Equipment (PPE) for which TGF Quality Assurance Team due diligence process have been implemented . It is developed as a tool to assist Principal Recipients (PR) of Global Fund grants in procurement.

Important Note:

This List may be used by Principal Recipients (PRs) of Global Fund grants when considering options with respect to procurement of Personal Protective Equipment (PPE). The list aims at providing PRs with information that will assist them in their procurement options. Please note that the list is not designed to be a basis for countries to select PPE to replace any applicable and legally required procurement processes. The Global Fund requires its grant recipients to comply with applicable procurement laws and provides the list only for the identification of products/suppliers that comply with the Global Fund's requirements. It is important that the product selected is compliant with the GF requirement criteria (refer to Guide to Global Fund Policies on Procurement and Supply Management of Health Products: https://www.theglobalfund.org/media/5873/psm_procurementsupplymanagement_guidelines_en.pdf). Furthermore, the Principal Recipient should not rely solely on the information provided in the list but should obtain evidence of products compliance with the GF requirements. For the above reasons, we strongly encourage users to ensure they are using the most recent version on our website when conducting procurement.

Product Category	Name of Manufacturer	Manufacturer Address	Commercial Name/Type	Presentation	Authorized Representative (if different than manufacturer)	Eligibility Criteria	Comments
FFP2 Mask	3M United Kingdom Plc	3M CentreCain RoadBracknellBerkshireRG12 8HTUnited Kingdom	3M™ Aura™ Particulate Respirators, Model: 9320	10pcs/box	Authorized Representative (if different than manufacturer)	CE Marked	White, single-use, folded, non-sterile, no-valve
