

Technical Review Panel Member

Curriculum Vitae

Name: **Dr Mikhail Ejov**

Nationality: Canada and Russian Federation

Additional languages: (1) **English** (Advanced Speaking/Reading/Writing)

(2) **Russian** (Mother Tongue)

Expertise: (1) Malaria Control, Elimination, Prevention and

Certification of Malaria Elimination: over 35 years

(2) Control and Prevention of Vector-Borne, Parasitic and

Neglected Tropical Diseases: over 30 years

Qualifications

Qualification	Institution	Department	Year
Ph. D:	Martsinovsky Institute of Medical	Vector-borne and	1990-1993
Malaria Epidemiology	Parasitology and Tropical	parasitic diseases	
and Control	Medicine, Moscow Russia		
Master's Degree:	Martsinovsky Institute of Medical	Vector-borne and	1984-1986
Medical Parasitology	Parasitology and Tropical	parasitic diseases	
and Tropical	Medicine, Moscow Russia		
Medicine			
Diploma:	1st Moscow Medical Institute,	Epidemiology and	1978-1984
University Degree in	Moscow Russia	hygiene	
Epidemiology and			
Hygiene			

Employment History

Employer	Position: Duties & Responsibilities	Place	Year
Independent	WHO/EMRO/Pakistan: To lead the process of	Pakistan	January
Consultant,	development of the National Strategic Plan for		2018 -
Malaria &	Malaria Elimination in Pakistan, 2021-2035 and		until
other	respective provincial strategies for malaria		present
Vector-	elimination.		_
Borne and			
Parasitic	WHO/GF/Pakistan: To assist in development and	Pakistan	
Diseases	submission of the funding request for malaria to the		
	Global Fund.		
	GF/TRP: To participate in the review of malaria	-	
	funding requests as a member of the TRP (since		
	2020).		

ூ The Global Fund ⑤ Le Fonds mondial ⑤ El Fondo Mundial ⑤ Глобальный фонд ⑤全球基金 الصندوق العالمي ⑤

October 2020

	WHO GMP HQ: To assist WHO/GMP/HQ in the finalization of two practical guides (for eligible countries & WHO) for certification of malaria elimination.	Switzerland	
	WHO/SEARO and GFATM/Sri Lanka: (1) to assist in the development of the National Malaria Strategic Plan (NMSP) for prevention of malaria reintroduction 2018-2022 in Sri Lanka and (2) to assist in the development and finalization of a malaria funding request for Global Fund.	Sri Lanka	
	WHO/SEARO/DPR Korea: (1) to assist WHO/CO/DPR Korea & MoPH/DPR Korea in finalizing national guidelines and SOPs on malaria surveillance for malaria elimination and (2) to assist WHO/CO/DPR Korea & MoPH/DPR Korea in conducting a national workshop on malaria surveillance for malaria elimination.	DPR Korea	
	WHO GMP HQ: To attend a WHO Evidence Review Group (ERG) Meeting on Mass Drug Administration (MDA) on Malaria, make a presentation on the impact of MPPT on <i>P. vivax</i> malaria and assist in the finalization of a final meeting report, held in GMP/WHO HQ in Geneva.	Switzerland	
	WHO/SEARO and GFATM/Sri Lanka: (1) to assist in the development of the national monitoring and evaluation plan in the phase of malaria prevention, 2018-2022 for AMC in Sri Lanka and (2) to conduct national training workshops on monitoring and evaluation in the phase of malaria prevention in Sri Lanka.	Sri Lanka	
	WHO/EMRO/Oman: (1) to review the ecoepidemiological pattern of malaria and its control and elimination over the past decades and document the experience of malaria elimination in the Sultanate of Oman; (2) to evaluate the existing national programme to prevent the reestablishment of local malaria transmission in Oman and (3) to develop a roadmap towards certification of malaria elimination in Oman.	Oman	
	WHO/EMRO/Pakistan: To lead the Malaria Programme Performance Review mission in Pakistan, undertake field visits and prepare the Aide Memoire and the MPPR final report.	Pakistan	
Independent Consultant, Malaria & other	WHO/SEARO/Sri Lanka and Maldives: To assist further SEARO in certification of malaria elimination in Maldives and Sri Lanka.	Sri Lanka & Maldives	January 2016- December 2017
Vector- Borne and	WHO/SEARO/India: (1) to assist in developing and launching a new national malaria elimination	India	- ,

Parasitic	framework and (2) to assist in developing a national	
Diseases	operational manual on malaria elimination in India. WHO/SEARO: To assist WHO SEARO in developing of a new regional malaria elimination strategy.	India
	WHO/GMP HQ: To assist GMP HQ in developing/finalizing a new global guideline on malaria elimination.	Switzerland
	WHO/WPRO/Papua New Guinea: To conduct the mid-term review of the National Malaria Strategic Plan, 2014-2018 in Papua New Guinea.	New Guinea
	WHO/SEARO/Myanmar: (1) to assist in developing/finalizing a national malaria elimination plan, 2016-2030 and (2) to assist in developing State/Region-wise operational plans to eliminate malaria in Myanmar	Myanmar
	WHO/EMRO: To assist WHO Eastern Mediterranean Regional Office (EMRO) in coordination of activities related to prevention of re-establishment of transmission in countries that are presently free from malaria.	Philippines
	WHO/WPRO: To attend a GMS malaria partners' meeting in Cambodia.	Cambodia
	WHO/EMRO/Afghanistan: (1) to lead the Malaria Programme Review mission in Afghanistan, assist in assessment of the current malaria control programme funded by UNDP/Global Fund in Afghanistan and prepare the MPR report and (2) to assist MoPH/Afghanistan and WHO/EMRO in developing a new national strategy to control and eliminate malaria, 2018-2022.	Afghanistan
	WHO/SEARO/Bhutan: To lead the malaria programme review mission in Bhutan, prepare the mission's report and present the mission's findings and recommendations to MoH, WHO/Country Office in Bhutan and WHO/SEARO in New Delhi.	Bhutan
	WHO/SEARO/DPR Korea: (1) to lead the malaria programme review mission in DPR Korea, prepare the mission's report and present the mission's findings and recommendations to MoH, WHO/Country Office in DPR Korea and WHO/SEARO in New Delhi and (2) to assist in developing project proposals (National Project Requests) for Global Fund in DPR Korea.	DPR Korea

	WHO/EURO: (1) to lead the development and assist in finalization of the manual on "Malaria Elimination in the WHO European Region, 2000-2015" and participate at its launch in Moscow, Russian Federation and (2) to participate in the WHO conference on prevention of malaria reintroduction in the WHO European Region in Moscow, Russian Federation.	Russian Federation	
	WHO/SEARO and GFATM/Sri Lanka: To participate in a national training on prevention of re-introduction and re-establishment of malaria in Sri Lanka.	Sri Lanka	
	WHO GMP HQ: (1) to provide technical assistance for GMP HQ in preparing a draft of the two practical guides (for eligible countries & WHO) for certification of malaria elimination and (2) to attend an inaugural meeting of Malaria Elimination Certification Panel organized by WHO/GMP/HQ in Geneva, Switzerland	Switzerland	
	WHO/SEARO: To assist in the development and finalization of the SEAR Regional Action Plan 2017-2030 towards Malaria-Free South-East Asia Region.	India	
	WHO/SEARO/DPR Korea: To assist MoPH/DPR Korea and WHO/SEARO in developing national guidelines and SOPs on malaria surveillance for malaria elimination and certification of malaria elimination in DPR Korea.	DPR Korea	
Independent Consultant, Malaria & other Vector- Borne and Parasitic	WHO/EURO & UNEP/GEF: To prepare a final project report and manuscript on "Demonstrating and scaling up sustainable alternatives to DDT for the control of vector-borne diseases in Southern Caucasus and Central Asia" funded by UNEP and GEF and executed by WHO/Europe, Green Cross International and other partners.	-	April 2014 – December 2015
Diseases	WHO/SEARO/GFATM/Myanmar: (1) to support preparation of a detailed workplan, budget, logical framework, training plan, procurement plan, etc. for GFATM NFM and GFATM RAI projects; (2) to support the organization of TSG meetings and partners meetings; (3) to support monitoring of the RAI project implementation and preparing progress reports; and (4) to document impact of the 3MDG/MARC and RAI projects on the containment of artemisinin resistance.	Myanmar	
	WHO/SEARO & WHO/WPRO: (1) to assist in developing/finalizing an elimination strategy for the Greater Mekong Sub-region with special focus	Myanmar, Cambodia, Thailand	

	on Cambodia, Myanmar and Thailand and (2) to participate in meetings/consultations on malaria elimination organized by WHO (South East Asia & Western Pacific Regional Offices – SEARO & WPRO) and partners at regional, inter-country and national levels.		
	WHO/WPRO/Cambodia: To assist in developing a national malaria elimination framework.	Cambodia	
	WHO/SEARO & WHO/WPRO: To assist in organization of a regional training on malaria elimination for the Greater Mekong Sub-region (GMS) countries held in Thailand.	Thailand	
	WHO/SEARO/Sri Lanka & Maldives: To assist SEARO in preparation of certification of malaria elimination in Maldives and Sri Lanka.	Maldives & Sri Lanka	
	WHO/AMRO/Argentina: To assist WHO Pan-American Health Organization/ American Regional Office - PAHO/AMRO in preparation of certification of malaria elimination including a relevant plan of action and a country visit in Argentina.	Argentina	
	WHO/SEARO & WHO/WPRO: To assist WPRO & SEARO in preparation of several regional guidelines on malaria surveillance and elimination.	India & Philippines	
	WHO/WPRO: To assist WPRO in the development of a new regional malaria elimination strategy and attend a relevant regional experts' consultation.	Philippines	
	WHO/GMP HQ: To assist the Global Malaria Programme HQ in developing a new global guideline on malaria elimination.	Switzerland	
Programme Manager, Malaria & other Vector- Borne and Parasitic Diseases	To be responsible for strategic guidance and technical assistance to Member States in planning, implementation, monitoring and evaluation of national malaria elimination campaigns in accordance with the Tashkent Declaration. To be responsible for scientific advice and practical guidance of the certification process of malaria elimination in eligible countries. To assist in developing regional policies and	WHO Regional Office for Europe, Copenhagen, Denmark	July 2010- March 2014
	guidelines and training/learning materials related to prevention of malaria re-introduction and certification of malaria elimination.		
	To assist in capacity building related to malaria elimination, prevention of malaria re-introduction		

inter-country and country levels. To support the countries' efforts to strengthen their capacities on disease management and prevention, epidemic control, malaria surveillance, community mobilization, inter-sectoral cooperation, cross-border collaboration on malaria control and elimination. To provide normative guidance and policy support in developing regional frameworks and training curricula for surveillance, control, prevention and elimination of vector-borne and parasitic diseases. To assist Member States in the need to design, establish/revise and run effectively national programmes that are able to control and prevent other vector-borne and parasitic diseases with particular focus on re-emerging diseases (dengue/chikungunya fever), visceral and cutaneous leishmaniasis, soil-transmitted helminthiases and other parasitic diseases. To assist in implementing and monitoring a regional project proposal "Demonstrating and scaling up sustainable alternatives to DDT for the control of malaria and other vector-borne diseases in Southern Caucasus and Central Asia" funded by UNEP and GEF and executed by WHIO/Europe, Green Cross International and other partners. To promote WHO leadership in malaria elimination and control/prevention of other vector-borne and parasitic diseases through relevant regional and inter-country initiatives, and specific research projects as well. To assist in promoting partnership actions and mobilizing resources to address issues related to malaria and other vector-borne and parasitic diseases in countries in need. To ensure that regional- and country-level activities against malaria and other vector-borne and parasitic diseases are consistent with the global policies and strategies, and the progress made is evaluated in accordance with WHO standards. To advise on and coordinate all malaria control and elimination activities in the WHO European Region. To provide strategic policy guidance and technical assistance to countries in developing, planning, Denmark		1	T
