Subject: NOTICE NO. 2 TO REQUEST FOR PROPOSAL (RFP)
TGF 14-040

Notice Number Two to the Global Fund Request for Proposal TGF 14-040, issued 25 July 2014 (the “**RFP**”) is as follows:

1. Additional Clarification.

The Global Fund has received an additional request for clarification and despite the fact this request was received later than the deadline for questions it has been decided to respond to ensure we receive the best proposals from all our bidders. However please note that no further questions will be accepted.

Question	Response
<p>“Just wanted to check with you.</p> <p>In case we opt for Type-1 Agreement & our Pipeline Projects Proposals are not of interest to Global Fund as per B-3 Schedule.</p> <p>In this case will we be moved to a Type-2 Agreement or, what will be the situation. I hope this will not go against us in terms of evaluation.”</p>	<p>The Global Fund’s objective is to form strategic supplier partnerships with a limited number of bidders. This process will commence with selection for a stage 2 collaborative workshop and the criteria for these are detailed in section 3.6 Para 6.</p> <p>The Global Fund is also drawing on established best practice in the structure of the partnerships as detailed in Section 3.5 Para 3.</p> <p>Final stage 2 evaluation as detailed in Section 3.8 shows that the development road maps are a key but not exclusive part of determining the type of agreement offered.</p> <p>Therefore, if projects offered ‘are of no interest’ when compared with the proposals from other bidders and there are no other evaluation criteria, which mitigate this fact, then the supplier may be offered a type 2 framework agreement.</p>
