

Global Fund Portfolio and Regional Groupings

September 2026

Note: For HIV burden estimates, the regional and portfolio graphs might include countries with unpublished data from the technical partners.

Global Fund Portfolio

'Global Fund Portfolio' in the interactive site designates countries that have recently received global fund funding for the disease and have reported programmatic results over the past two cycles. In addition, countries only receiving funds through the nongovernmental organization (NGO) rule are not included in the aggregate data.

The inclusion of a geography in a regional grouping does not imply it has received funds from the Global Fund.

Geography Name	Global Fund Region	UN Geoscheme Region
Afghanistan	Southern Asia	Asia
Albania	Southern Europe	Eastern Europe and Central Asia
Algeria	Northern Africa	Middle East and North Africa - Southern and Eastern Africa
Angola	Middle Africa	Middle East and North Africa - Southern and Eastern Africa
