Next Steps on Preparations for Strategy Implementation

46th Board Meeting

For Board Information
GF/B46/21
8-10 November 2021, Virtual
Overview

Timing

- Preparations for Strategy implementation are sequenced to commence in line with Board approval of the Strategy Narrative - and are just kicking off internally.

- Preparations will span a two-year period (2022-2023) and be planned holistically, but work stages prioritized:
  - Over 2022: preparations needed in advance of issuing allocation letters;
  - Over 2023: other preparations needed in advance of first cycle of grants under next Strategy, most of which start 1 January 2024 onwards.

Focus

- Preparations will span areas of change needed at the Secretariat level, and to be instigated across other areas of the partnership.

- There will be a special emphasis on areas where 1) improved performance is needed, and 2) areas that are new in the Strategy (including top 10 things that are new about the Strategy).

- Flexibility will need to be maintained to continue to adapt to the evolving global context.

Oversight

- Preparations will be overseen by the Strategy Committee (SC), under the overall guidance of the Board.

- The SC will have a first briefing on preparations for Strategy implementation in March 2022.
Overarching Approach

• Areas of Strategy focus set out under the Primary Goal, Objectives and Partnership Enablers will be reviewed to see where changes or special attention is needed to ensure their delivery, assessing:
  - Which existing levers the Global Fund partnership can use to incentivize delivery;
  - And to determine where new solutions need to be identified.
• This work will consider lessons from implementation to date, interdependencies between work areas, root cause analyses, assessment of relevant system-wide (dis)incentives – and will be undertaken jointly with actors in the partnership where relevant and as described in the Strategy Narrative.
• An overview of the approach and schedule for preparations for Strategy implementation will be discussed with the SC in March 2022.

Post-2022 Strategy
Overview of critical activities to prepare for the new Strategy and next cycle of grants

• As we finalize the next Global Fund Strategy, it is essential we prepare for effective implementation in the 2023-2025 cycle of grants.

• This deck focuses on preparation and launch of the next cycle of grants, noting focus on implementation beginning in 2024 will come later in the cycle.

• A large number of SC and Board decisions in 2021-2022 are required to successfully launch the next cycle of grants, as well as significant Secretariat preparations.

• The following slides outline the critical SC and Board decisions that will update the Global Fund’s operations for the new Strategy and build upon the SC’s workplan, and outlines Secretariat work with partners to prepare allocations, funding request materials, guidance for country dialogue, grant design, and review and approval in 2023.

Conclusions

• A large number of SC and Board decisions in 2021-2022 and beyond are required to successfully launch the next cycle of grants, as well as significant Secretariat preparations.

• SC/Board decisions and Secretariat preparations are made to implement the new Strategy, while country decisions about specific prioritization, funding, implementers etc. are informed by Global Fund requirements and guidance but are made at country level based upon unique country context, and then reviewed by TRP, GAC and the Board.

• We will update the SC at the Spring 2022 meetings on lessons from 2020-2022 cycle and preparations for the Funding Request/Grant-Making process.
