

**LIST OF INSECTICIDE TREATED NETS (ITN) THAT MEET GF QA REQUIREMENTS FOR USE AGAINST MALARIA VECTOR**

**Edition: Version 07**  
**Date: 28<sup>th</sup> June 2024**

The list is a consolidated list of insecticide treated nets prequalified by WHO Prequalification Program as well as WHOPES converted. It is developed as a tool to assist Principal Recipients (PR) of Global Fund grants in procurement.

**Important Note**

This List may be used by Principal Recipients (PRs) of Global Fund grants when considering options with respect to procurement of Insecticide Treated Nets (ITN). The list aims at providing PRs with information that will assist them in their procurement options. Please note that the list is not designed to be a basis for countries to select ITN to replace any applicable and legally required procurement processes. The Global Fund requires its grant recipients to comply with applicable procurement laws and provides the list only for the **identification of products/suppliers that comply with the Global Fund's requirements**. It is important that the product selected is compliant with the GF requirement criteria ( refer to **Guide to Global Fund Policies on Procurement and Supply Management of Health**

**Products:**[https://www.theglobalfund.org/media/5873/psm\\_procurementsupplymanagement\\_guidelines\\_en.pdf](https://www.theglobalfund.org/media/5873/psm_procurementsupplymanagement_guidelines_en.pdf)). Furthermore, the Principal Recipient should not rely solely on the information provided in the list but should obtain evidence of products compliance with the GF requirements. For the above reasons, **we strongly encourage users to ensure they are using the most recent version on our website when conducting procurement.**

Name of Active	Formulations	Manufacturer	Commercial Name	Manufacturing site	Eligibility Criteria	Specifications
Alpha-Cypermethrin	Polyethylene incorporating into filaments	A to Z Textiles Mills Ltd	MiraNet LLIN	A to Z Textile Mills Limited, Plot No 698, P.O Box 945 , Off Dodoma Road, Net World Area, Kisongo Arusha (Tanzania)	WHOPES Recommendation - PQ Converted.  WHO PQ ref. 009-001	WHO specification 454/LN/3 (August 2015)

NOTE:

- In order to get better knowledge on the ITN behavior on flammability, the QA team is currently implementing a randomized surveillance program in testing flammability as per EN 1102 Standards for the ITNs which have not such test in their approved specifications. It is admitted that non-compliance cannot be stated on the basis on the above collected information. However, suppliers maybe asked to consider these results for further improvement of the design of their ITNs.
- YELLOW** signifies a new product entry; **PINK** signifies modification of an existing entry/additional sites.
