23 February 2023

Abdallah Bchir is a public health specialist with extensive experience in evaluation. He started his career as medical doctor and professor of Public Health at a medical school in Tunisia. He joined Gavi with the M&E team in 2003 and acted as head of the evaluation unit. Following his retirement from Gavi, in 2020, he returned to his previous position as professor of Public Health in Tunisia where he currently lives. Dr. Bchir has managed several important evaluations in Gavi, contributed to strengthening its monitoring system and policies. He has country experience mainly in Africa as consultant for WHO and as manager in Gavi.

Dr. Bchir is member of The Results advisory Group of the Global Financing facility. He holds MD, MSc, and PhD degrees in Public Health. He is fluent in Arabic and French and has a working knowledge of English. He has both Tunisian and Swiss citizenships.
