Make, Approve and Sign Grants

Approved on: 13 March 2023
Approved by: Executive Grant Management Committee
Process Owner: Grant Portfolio Solutions and Support Department
Associated OPN: OPN on Make, Approve and Sign Grants

Process Metrics for Make, Approve and Sign Grants

Principal Recipients and Country Teams are expected to meet the following metrics:

- Grants are submitted to the Grant Approvals Committee within six months from the relevant Funding Request submission to the Technical Review Panel.
- The Grant Confirmation is signed by the Global Fund at least one month before the Implementation Period start date.

Purpose and Overview

These Operational Procedures provide guidance on procedural steps during grant-making and apply to grants financed during the 2023-2025 allocation period (Grant Cycle 7) and onwards¹. The requirements for specific grant deliverables set out in these procedures do not apply to Focused portfolios, unless explicitly stated (see also Annex 2 of the Operational Policy Note on [Make, Approve and Sign Grants](#)).

Whereas the Operational Policy Note on [Make, Approve and Sign Grants](#) includes a dedicated section for multicountry grants, the specific considerations for multicountry grants within this Operational Procedures are contained within each grant-making phase, as relevant.

A list of acronyms can be found in Annex 1 of this document.

An overview of these Operational Procedures' content is given in the table below. Press "Ctrl + click" on the links to go to the relevant phase or sub-process.

¹ Refer to the Operational Procedures on Make, Approve and Sign Grants for grants financed during the 2020-2022 allocation period.

A. Plan

During the funding request stage, the CCM, PRs and CT jointly plan the funding request and grant-making stages in an integrated manner. At the start of grant-making, the CCM (including Civil Society), PRs, CT, and LFA update the plan and timelines to complete grant-making deliverables based on the TRP recommended funding request.
