7. To keep the Board and, where appropriate, the Executive Director, fully and currently informed of the Office of Inspector General's activities and findings, through the submission of Annual Reports, reports of particular investigations and audits and other communications as deemed appropriate.

Reporting and Authority

1. The Inspector General shall report directly to the Board. The Inspector General's primary point of contact with the Board will be the Finance and Audit Committee ("FAC"), but he or she shall retain the authority to report his or her activities or findings solely to the Board as a whole, and not to inform a particular committee, where the Inspector General deems that the subject(s) and nature of the matter investigated or other circumstances so require. The Inspector General shall inform the Executive Director of his or her activities and findings as he or she deems appropriate.

2. The Inspector General will have the authority to:
   - Access all books and records maintained by the Global Fund;
   - Access all books and records relating to grants funded by the Global Fund, whether maintained by PRs, Sub-Recipients, LFAs or LFA subcontractors, where permitted under applicable arrangements;
   - Seek any information it requires from any personnel involved in the Global Fund's projects and require such personnel to cooperate with any request made by the Office of Inspector General; and
   - Obtain independent professional advice and secure the involvement in its activities of outside persons with relevant experience and expertise, if and when determined necessary.

3. The specific tasks and activities of the Inspector General are determined by: (a) the functions set forth in these Terms of Reference; (b) the direction of the Board, consistent with these Terms of Reference; and (c) the discretion of the Inspector General to achieve the objectives of the Terms of Reference.

4. The Inspector General shall prepare an Annual Plan in consultation with the FAC that targets areas of review and investigation for the upcoming year. In addition to the Annual Plan, the Inspector General shall retain the authority, independence and flexibility to investigate any and all allegations of fraud and abuse as they arise and otherwise respond to events that occur during the course of the year.

5. The Inspector General shall prepare an Annual Report measuring actual performance against the Annual Plan and summarizing the operations of the Office of Inspector General during the immediately preceding year. The Annual Report should be submitted to the Board, through the FAC or directly, if necessary to do so, with a copy to the Executive Director. Following review by the Board and the Executive Director, the Annual Report ordinarily should be made available on the Global Fund's website, through the Office of Inspector General page.

6. The Annual Report should include the following information:
   - A description of the mission, organization, staffing and resources of the Office of Inspector General;
   - A quantitative summary of the Office of Inspector General's activities during the period, including: the number of reports received through the hotline and other
whistleblower reporting mechanisms; and the number of audits and investigations undertaken, completed and/or pending;

- A description of any investigations of the Global Fund's internal operations and processes, including any description of significant problems, abuses, and deficiencies that were identified, and any recommendations for corrective action that the Office of Inspector General made during the period;

- A description of investigations of the Global Fund's external programs, including any description of significant problems, abuses, and deficiencies that were identified and any recommendations for corrective action that the Office of Inspector General made during the period;

- An identification of any significant recommendation described in a prior Annual Report for which corrective action has not yet been completed;

- A summary of any matters referred to relevant local law enforcement authorities and the outcome of such referrals;

- A description of other developments within the Office of Inspector General during the period including, for example, policy developments and new tools and resources;

- A listing of any entities, businesses, or persons whom the Global Fund has decided not to retain or not to award any grants, contracts, or other business for a stated period as a result of an Inspector General investigation; and

- Any other information that the Inspector General deems appropriate.

7. The Inspector General shall provide periodic reports regarding particular investigations or audits to the Board or an appropriate committee thereof, with due consideration to confidentiality and other material concerns. The Inspector General also should inform the Executive Director of such matters where the Inspector General may deem it necessary or appropriate to do so. The Inspector General also should immediately bring matters to the attention of the Board and/or to the Executive Director if and when circumstances so require. Reports of particular investigations and audits should be made available on the website, where appropriate.

Employment Status

1. The Inspector General and the Office of Inspector General staff will be World Health Organization ("WHO") staff members as long as the Global Fund continues its Administrative Services Agreement with the WHO and any Global Fund staff are WHO staff members and provided that the WHO Director General has delegated to the Inspector General certain authorities relating to Global Fund Office of Inspector General employees and expenditures.
Budget Allocation

1. The Office of Inspector General receives a separate budget allocation, as approved by the Board. The Inspector General has authority to approve travel, expenditure, vacation or other requests submitted by his or her staff. The Inspector General also has authority to approve his or her own travel, expenditures, vacation and other such actions but must provide reports of any such actions to the FAC for ratification.

Working Relationships

In particular, if the Inspector General receives information regarding a matter that is outside the scope of the Office of Inspector General's mission but may be relevant to the work of these or other parties, he or she should inform these individuals or entities as appropriate and as promptly as possible.

2. Certain matters that are brought to the attention of the Inspector General may be covered by the Global Fund's Policy on Ethics and Conflict of Interest for Global Fund Institutions and therefore within the mission of the Board's Ethics Committee. In such cases, the Inspector General should inform and coordinate with the Ethics Committee as appropriate. Correspondingly, the Ethics Committee should inform the Inspector General of matters of which it become aware that are relevant to the mandate of the Office of Inspector General and should refer any such matters to the Office of Inspector General for investigation.
