

**Pooled Procurement Mechanism Reference Pricing: Antimalarial medicines** (version: quarter 1 2020)

The Global Fund has established Framework Agreements with manufacturers of antimalarial medicines artemisinin-based combination therapy and other antimalarials medicines with the aim to achieve lower prices -and also ensure the sustainable and reliable on-time supply of the full range of the needed antimalarial medicines.

Reference prices for Artemether/Lumefantrine 20/120mg, 6x1 and 6x2 are equal for dispersible and non-dispersible. We encourage to procure the dispersible form as better formulations for children.

The Pooled Procurement Mechanism (PPM) aims to deliver the orders for the following antimalarial medicines at or below reference pricing below. These prices should be used for budgeting purposes and will be used on all PPM Price Quotes.

Actual prices achieved for a grant will depend on how early the orders (> 5 months) are placed by Principal Recipients - and additionally the achievement of certain volume thresholds through the pooled volumes to enable us to achieve negotiated prices through the mechanism. Actual prices achieved will be charged to the grant.

Note that pricing for some items may not be available for some countries due to patent or licensing restrictions.

Some non-optimal products/formulations/pack-sizes have been removed from this version of the reference price list: pricing can be provided on request should the product still be commercially available.

| Product Description   | Pack Size           | Reference price US\$ Per Pack for planned procurement (>5 months) | Reference price US\$ Per Treatment for planned procurement (>5 months) | Maximum price US\$ Per Pack for late orders or country registration constraints | Maximum price US\$ Per Treatment for late orders or country registration constraints |
|---|---------------------|---|--|---|--|
