THE GLOBAL FUND

Version 56  
31 Mar 2025

List of HIV Diagnostic test kits and equipments classified according to the Global Fund Quality Assurance Policy

According to **Global Fund Quality Assurance Policy for Medical Devices (including In-Vitro Diagnostics) and core Personal Protective Equipment** ( <https://www.theglobalfund.org/en/sourcing-management/quality-assurance/in-vitro-diagnostics/> ), in force since 1st March 2011, Grant Funds may only be used to procure HIV RDTs if they have been:

**Criterion 1-** prequalified by the WHO Prequalification of In Vitro Diagnostics Programme, or

**Criterion 2-** authorized for use by one of the Regulatory Authorities of the Founding Members of GHTF when stringently assessed (**as Class C or D**) **or by a WLA within their scope of listing**

**Criterion 3-** acceptable for procurement using Grant Funds, as determined by the Global Fund, based on the advice of the WHO Expert Review Panel

**Categories falling under Criterion-1 and -3**

In-Vitro Diagnostic Products with respect to HIV, tuberculosis and malaria and to hepatitis B, hepatitis C and syphilis co-infections, as well as IVDs providing information that is critical for patient treatment of these diseases

**Categories falling under Criterion-2**

All under Criterion-1 excluding HIV Self Testing

The list is an overview of IVDs to assist Principal Recipients (PRs) of Global Fund grants to identify the status of IVDs according to the relevant Global Fund Quality Assurance Policy. It includes products recommended for use after technical evaluation by WHO Prequalification of Diagnostics Programme, Regulatory Authorities of GHTF founding members, WLAs and the WHO hosted Expert Review Panel.

The list is not exhaustive; PRs can procure product(s) not listed below as long as PRs demonstrate that the product is compliant with one of the above mentioned requirements.

[Products prequalified by WHO https://extranet.who.int/prequal/vitro-diagnostics/prequalified/in-vitro-diagnostics](https://extranet.who.int/prequal/vitro-diagnostics/prequalified/in-vitro-diagnostics)

The list is updated regularly based on evidence received by the Global Fund.

HIV Simple assays/Rapid Diagnostic Tests (RDTs)  
(not intended to be used as a donor screening tests – unless otherwise specified)

Manufacturer Product Catalogue number	Product Name	Number of tests per kit	Initial Sensitivity	Final Specificity	Manufacturer	Analyte	Specimen Type	Anticipated Shelf life (months)/ Storage temperature	Comments	Eligibility WHO or GHTF countries
IHI-T402WA (previously IHI-T402W)	ABON™ HIV 1/2/O Tri-Line Human Immunodeficiency Virus Rapid Test Device	40	100.00%	99.70%	ABON Biopharm (Hangzhou) Co. Ltd. Hangzhou, PR China	Discrimination between HIV-1 and HIV-2 antibodies	Serum/Plasma/ Whole Blood	24 months 2 to 30°C	see WHO Public Report for consumables	<a href="#">WHO PQ</a>
