

The Global Fund is a 21st-Century Partnership Designed to Accelerate the End of AIDS, Tuberculosis and Malaria as Epidemics

Founded in 2002, the Global Fund is a partnership between governments, civil society, the private sector and people affected by the diseases.

The Global Fund raises and invests nearly US\$4 billion a year to support programs run by local experts in countries and communities most in need.

By challenging barriers and embracing innovative approaches, the Global Fund partnership strives for maximum impact. Working together, we have saved millions of lives and provided prevention, treatment and care services to hundreds of millions of people, helping to revitalize communities, strengthen health systems and improve economies.

VISION

A world free from the burden of AIDS, tuberculosis and malaria.

MISSION

Investing the world's money to defeat AIDS, tuberculosis and malaria.

WHERE WE INVEST FOR IMPACT

OUR MODEL

5. OVERSIGHT IN ACTION

Ongoing financing depends upon performance and proven results. Local Fund Agents in each country monitor implementation of grants. The Global Fund's Office of the Inspector General conducts audits and investigations.

4. WE EVALUATE

An independent panel of experts reviews the plan to determine if it will achieve results. The panel may request changes to the plan. Once finalized, it goes to the Global Fund's board for approval.

1. WE RAISE THE MONEY

The Global Fund raises and invests nearly US\$4 billion a year to support programs run by local experts in more than 100 countries. The money comes 95 percent from donor governments and 5 percent from the private sector and foundations.

2. COUNTRIES MAKE INVESTMENT DECISIONS

A Country Coordinating Mechanism made up of people whose lives are affected by the three diseases, medical experts, government and civil society meets and develops a plan to fight the diseases in their community.

3. LOCAL EXPERTS IMPLEMENT

Countries take the lead in determining where and how best to fight diseases. Local experts and partners use grant money to deliver programs.
