

ARV Procurement Working Group (APWG) *Anticipated Demand Forecast: December 12, 2018*

Methodology and Assumptions

The APWG Quarterly Anticipated Demand Forecast represents a summary of the expected orders over the coming 12-18 months that are visible to APWG members. The forecast includes pediatric ARVs, low-volume adult ARVs, and adult products in transition. To keep the forecast current, the Procurement Consortium will share an updated anticipated demand forecast on a quarterly basis. **Product classifications are based on the newly updated 2018 Optimal Formulary and Limited-Use List for Paediatric ARVs**

Please note the information provided is the best available at the time of publication and subject to change.

Source Data

The forecast reflects the aggregation of placed and to be placed orders from the following procurement agents:

- Global Fund - Pooled Procurement Mechanism (PPM)
- Kenya Medical Supplies Authority (KEMSA)
- Pan American Health Organization (PAHO)
- Partnership for Supply Chain Management (PFSCM)
- USAID - Global Health Supply Chain – Procurement and Supply Management (GHSC-PSM)
- United Nations Children’s Fund (UNICEF)
- United Nations Development Program (UNDP)
- Pharmaceuticals Fund and Supply Agency (PFSA)

APWG Anticipated Demand Forecast as of December 12, 2018: *By Expected Delivery Quarter*

(total pack volumes across all procurement agents by expected delivery quarter, defined as the quarter in which ARVs are expected to be handed over to
