

## Pooled Procurement Mechanism Reference Pricing: ARVs

(version: quarter 1 revised 2017)

The Global Fund has established Framework Agreements with manufacturers of antiretroviral medicines with the aim to achieve lower prices -and also ensure the sustainable and reliable on-time supply of the full range of the needed ARVs.

The Pooled Procurement Mechanism (PPM) aims to deliver the orders for the following ARVs at or below reference pricing below. These prices should be used for budgeting purposes and will be used on all PPM Price Quotes.

Actual prices achieved for a grant will depend on how early the orders are placed by Principal Recipients - and additionally the achievement of certain volume thresholds through the pooled volumes to enable us to achieve negotiated prices through the mechanism. Actual prices achieved will be charged to the grant.

Note that pricing for some items may not be available for some countries due to patent or licensing restrictions.

Some non-optimal products/formulations/pack-sizes have been removed from this version of the reference price list: pricing can be provided on request should the product still be commercially available.

| Product Description  | Pack size  | Reference Price (USD) |
|--|------------|-----------------------|
| Abacavir + Lamivudine + Zidovudine 300mg + 150mg + 300mg Tablet                | 60         | 20.00                 |
| Abacavir + Lamivudine + Zidovudine 60 mg + 30 mg + 60 mg tab                   | 60         | 7.50                  |
