The Global Fund Values

At the Global Fund, we share one mission and one culture. Our organizational culture is based on the values we all embrace as people and as a team. These values greatly influence how we engage internally, as well as with partners outside the organization.

By really living the values in our day-to-day work, we all help to define the Global Fund's personality and shape the way people think about the organization. Our values also foster excellence and greater fulfillment in the workplace. Living our values makes us a better Global Fund.
