

# COVID-19 Situation Report #16

9 June 2020

## 1. Situation Overview

**Global cases:** 6,931,000 confirmed. **Global deaths:** 400,857 confirmed. **Countries, areas or territories with cases:** 216 (as of 9 June, [WHO](#)). Global Citizen launched [Global Goal: Unite for Our Future](#), a new campaign to support COVID-19 tests, treatments and vaccines for all. Gavi, the Vaccine Alliance, raised US\$ 8.8 billion for its five-year replenishment. Gavi launched the [Gavi Advance Market Commitment for COVID-19 Vaccines \(Gavi Covax AMC\)](#) for access to COVID-19 vaccines. An independent [WHO Foundation will be established](#) to broaden WHO's donor base and work towards more sustainable and predictable funding. WHO has published new guidance on: [the use of masks](#) for the control of COVID-19; [integrating digital tools into contact tracing methods](#); and [maintaining essential health services](#) during the pandemic. WHO reports that a record number of countries have contributed data revealing [disturbing rates of antimicrobial resistance](#), with fears that COVID-19 might worsen the situation. Currently over [120 candidate vaccines have been mapped](#) and sites in 40 countries have expressed an interest to join the Vaccine Solidarity Trial. See the [WHO Situation Reports](#) for detailed updates.

## 2. Global Fund COVID-19 Response

The Global Fund is providing up to US\$1 billion and operational flexibility to help countries fight COVID-19, shore up health systems and mitigate the impacts on lifesaving HIV, TB and malaria programs. Emergency funding is available through the US\$500 million [COVID-19 Response Mechanism](#) and additional [grant flexibilities of up to US\\$500 million](#) ([Español](#) | [Français](#)). Application materials for the COVID-19 Response Mechanism are available [here](#).

As part of the global response to COVID-19, the Global Fund is working with health leaders, partners and governments to ensure the global response to COVID-19 includes lessons learned from the fight against HIV, TB and malaria: protect human rights and address stigma and discrimination, particularly among key and vulnerable populations; fight gender barriers to health; engage communities in the response; and fairly allocate limited COVID-19 resources and new tools so that no one is left behind.

The Global Fund is a founding partner of the [Access to COVID-19 Tools \(ACT\) Accelerator](#), a global collaboration of organizations and governments working to accelerate the development, production and equitable access to new COVID-19 technologies. As part of ACT-A, we are a co-convenor of both the Diagnostics Partnership (with FIND) and the Health Systems Connector (with the World Bank), and we are a procurement and deployment partner in the Therapeutics Partnership. We also co-lead the WHO Diagnostics Consortium along with UNICEF to negotiate pricing and procure molecular diagnostic tests for COVID-19, and we have opened our innovative online sourcing portal, [wambo.org](#), to all countries and organizations so they also can benefit from the Global Fund's economies of scale for health products. See the [COVID-19 Key Messages and Talking Points](#) for more detail.

#### Latest updates:

- **COVID-19 grant flexibilities:** Funding has been approved for 87 countries and six regional grants (247 individual decisions) for a total of nearly US\$156 million through COVID-19 grant flexibilities. The full list of countries and funding approved is available [here](#). All requests follow WHO guidance on preparedness and early response. Source of funds almost exclusively from savings from existing grants, thus no negative impact on ongoing Global Fund-supported programs. The majority of all countries implementing Global Fund grants are now using the COVID-19 grant flexibilities.
- **COVID-19 Response Mechanism:** The Global Fund has received over 30 funding requests for the COVID-19 Response Mechanism totaling more than US\$300 million from all regions where the Global Fund invests. Funding requests through the COVID-19 Response Mechanism will be reviewed and processed within 10 days. Rwanda is the first country to receive approval for funding through the COVID-19 Response Mechanism, for a total of US\$7.6 million.

### 3. Business Contingency Planning for Existing Global Fund Grants

Business Contingency Planning focuses on protecting the Global Fund's ability to deliver its core mission, prioritizing the continued delivery of impact from the current grant cycle and the development of funding requests and grants to deliver maximum impact in the 2020-2022 allocation period.

#### 3.1 2020-2022 Allocations

- To provide additional flexibility for applicants to submit funding requests as soon as they are ready, the Global Fund has updated the [funding request submission dates for 2020](#).

#### 3.2 Operational Guidance for Countries

- The Global Fund is adapting processes for current grants and will share guidance notes as they are developed. Please visit our [website](#) for updates.

#### 3.3 COVID-19 Impact on HIV, TB, Malaria, Communities, Rights and Gender

- WHO and technical partner guidance relevant to Global Fund work is available [here](#).
- Global Fund COVID-19 Information Notes: Global Fund investments and advice to Principal Recipients and implementers strictly follow WHO guidelines. Global Fund COVID-19 Information Notes on HIV, TB, malaria, health systems and human rights are available [here](#).

#### 3.4 Procurement and Supply Chain

- As of 25 May 2020, the Global Fund's [product and delivery outlook](#) shows the overall impact of COVID-19 on health product supply chains for Global Fund grants remains at **moderate**.
- NEW: [Procuring COVID-19 Diagnostics through the Global Fund's Accelerated Order Mechanism \(AOM\) | EN | FR](#)

### 4. Messaging and Advocacy

- [COVID-19 Key Messages and Talking Points](#): updated regularly.
