

Pooled Procurement Mechanism Reference Pricing: non-health products

(version: quarter 2 2025)

The Global Fund has established a partnership with UNOPS to achieve lower sustainable prices and also ensure the sustainable and reliable on-time supply of the full range of the non-health products.

The prices below are the prices at which the Global Fund Pooled Procurement Mechanism aims to deliver the products at or below throughout the grant implementation period as recommended in the Global Fund Guidelines for Grant Budgeting for health products: https://www.theglobalfund.org/media/3261/core_budgetinginglobalfundgrants_guideline_en.pdf

Actual prices achieved for a grant will depend on how early the orders are placed by Principal Recipients - and additionally the achievement of certain volume thresholds through the pooled volumes to enable us to achieve negotiated prices through the mechanism. Actual prices achieved will be charged to the grant.
