PARTNER PORTAL LEARNING SERIES
Purpose of this guide

The goal of a revision is to allow Global Fund investments to adjust to programmatic requirements during grant implementation, in order to ensure the continued effective and efficient use of Global Fund resources invested to achieve maximum impact in line with the [Global Fund's 2017-2022 Strategy](#). A revision may also occur due to other changed circumstances and arrangements.

A number of critical revisions exchanges - including notifications and document submissions - between PRs and the Global Fund are facilitated through the **Global Fund Partner Portal.**

This document is an interactive guide for **PRs** to understand the **process and system steps involved in receiving and submitting revisions documents**.
